

Dear Member and Guest

TVEP Project Preview Event & Forum 16th July 2008 Teesside University.

TVEP will be presenting our regular Project Preview Event and Forum which is to be held on **Wednesday 16 July 2008** at 0800hrs to 1000hrs at the University of Teesside and is to be followed by a tour of the University for those wishing to stay longer.

The key presenters at this event will be:

- **Costain (Oil and Gas)** – (www.costain.com/cogap)
- **Paul Wurth & Co web** – (<http://www.paulwurth.com>)
- **Rig Design Services RDS (KCA Deutag)** (<http://www.kcadeutag.com>)
- in conjunction with **Teesside University** who will present their capabilities.

This is a must attend event if you want to remain ahead of the competition as each of these major Companies is either opening an office, or proposing to open within the Tees Valley, providing a significant number of long term jobs and business opportunities. This is their first chance to address the Engineering Sector and Supply Chain to discuss their plans and aspirations and how our members can support them.

This is also the first occasion organised by TVEP since our establishment as a Company (limited by guarantee), a strategic development made possible by the continuing commitment of members and the support of the University of Teesside. The close alliance between the University and TVEP is a unique occurrence nationally and we will also at this event, outline the revised strategy of TVEP and the role of the University within the Partnership.

Other guests include Tees Valley Regeneration, the North East Chamber of Commerce and major Client Companies located within the Tees Valley who will provide networking opportunities.

More details about the event and the room venue at the University will be issued closer to the date, but to reserve your place please book now by calling either Clare Smart on Clare.smart@balfourbeattymanagement.com (01642 356688) or Sally Renwick on srenwick@wolviston.com (01642 607375) or by completing the attached Delegate Registration fax back form and faxing to 01642 615792.

We do look forward to seeing you on the day and showing our speakers the high level of interest within the Engineering Supply Chain within the Tees Valley.

Regards

Ian Basford
Chairman TVEP
